

Our Smallest Desktop PC

The StonePC Micro packs amazing performance into a tiny 4" by 4" chassis. Available with a choice of 10th Generation Intel® Processors, it's a fully scalable desktop solution with a tiny footprint. The Micro is also VESA mountable onto the back your existing monitors - making it a cost effective, yet high performing solution. The Micro packs great features into the smallest possible form factor, providing customisable, flexible and intelligent computing for small spaces.

- Compact design
- VESA Mountable neatly to the back of your screen
- Intel® Optane Ready
- Intel® WiFi 6 Gig+ Onboard
- Capable of running 3x displays simultaneously
- M.2 Interface
- TPM 2.0 onboard, for increased data security
