5 Year Next Business Day Warranty	27 TB

## Stone Virtualisation Support Services

Stone VSS provide an enhanced level of virtualisation support allowing you to offload all of your virtual host or cluster configuration and maintenance needs. A 1 year subscription is included as standard with all Eclipse platforms, with options to purchase up to 5 years subscription upfront.

<b>Incident Reporting</b>	Log and track all requests or incidents on our easy to use Support Portal
<b>Monitoring</b>	Agent included, alerting Stone VOC - and you - to any critical events, 24 hours a day, 365 days a year
<b>Reduced TCO</b>	Reduce the support burden on your IT staff
<b>Respond and Adapt</b>	Help you respond quickly to ever changing needs - for example, get help with deploying a new virtual machine quickly and easily
<b>VSS Remote Assistance</b>	With your permission we can remotely access the Eclipse platform across the internet helping to respond to your requests quickly and efficiently, reducing the time that your IT staff are tied up
<b>Optional Services</b>	Stone VSS is upgradeable to include Stone Standard Remote Support, allowing us to help you respond to issues and incidents outside of the Eclipse SF1 platform
