

# Stone 360 Rebates

TECHNOLOGY  
DESIGNED, SERVED AND SUSTAINED

Stone 360 Rebates is part of our IT Asset Disposal (ITAD) service. Every time you use our IT recycling service, we aim to reuse every component and minimise waste wherever possible as part of our 'Zero to Landfill' commitment. This means, where we can recycle your unwanted IT we will pay you a rebate value in the form of cash back. As an added bonus, if you book your recycling via our **Stone 360 app**, you can use our **360 Boost** function, that increases the value of your standard rebate by 20 % so you can purchase new or refurbished tech from Stone.

Grading of 'Open Box' through to 'S/R' will be applied against each asset during processing ('Open Box' being as new and 'S/R' being poorest as not working). This will be applied as a percentage against the indicative Stone 360 rebate value to derive the rebate sum for a specific asset.

Any asset classified as Grade C unit will have 30% price deduction applied. Any Grade D units will be classed as non-working, therefore no Stone 360 rebate value applied against these assets.

Pricing stated is valid up to **Wednesday 30th June '21** - only collections that are completed during this time qualify.

## DESKTOPS

MODEL	STANDARD REBATE	STONE 360 BOOST REBATE
Quad Core - Grade B	£1.66	£1.99
Core i3 1st Gen - B	£8.28	£9.94

Core i7 4th Gen - B	£43.68	£52.42
Core i7 5th Gen - B	£50.60	£60.72
Core i7 6th Gen - B	£52.80	£63.36

## MONITORS

£8 rebate for monitors 22" and above.

### Integrity

To qualify for rebates all items must be 100% complete. Where applicable this includes memory, hard drive and battery.

If an asset is not complete or classed as D Grade, a charge of £2.00 per asset will be applied - if the rebate value is in a negative value, you will not be charged and classed as cost neutral.

### Etching

Assets that have been acid etched or engraved are acceptable for resale, but the extent of the etching will have an impact on rebate values, often significant.

### COA

All computers require originally installed certificates of authenticity to be present as a minimum.

## Terms & Conditions

**1** All customers of Stone Computers Limited are eligible to receive a rebate or a revenue split percentage for the equipment that has been processed through Stone's recycling division, ITAD.

**2** **List of eligible equipment for rebate or Revenue Split Percentage programme is as follows:**

- |                                      |  |
|--------------------------------------|--|
| a) Desktops                          | (Set rebate and revenue split - min Dual Core Processor) |
| b) Laptops                           | (Set rebate and revenue split - min Dual Core Processor) |
| c) Monitors                          | (Minimum screen size = 17" inches)                       |
| d) Servers                           | (Revenue split only)                                     |
| e) Networking Switches               | (Revenue split only)                                     |
| f) Mobile Phones (including Tablets) | (Revenue split only)                                     |

**3** **All rebates and revenue percentages are calculated and offered based on the following criteria:**

- |                                      |   |
|--------------------------------------|---|
| a) Desktops                          | (Make, model, processor speed and generation) |
| b) Laptops                           | (Make, model, processor speed and generation) |
| c) Monitors                          | (Screen size)                                 |
| d) Servers                           | (Price on Agreement - Stone 360 rebate value) |
| e) Networking Switches               | (Price on Agreement - Stone 360 rebate value) |
| f) Mobile Phones (including Tablets) | (Price on Agreement - Stone 360 rebate value) |

**4** To be eligible for a full rebate or Revenue Split Percentage programme, the equipment needs to meet Stone's grading requirements. If an item doesn't meet the below criteria Stone will offer a lower or no rebate due to item being classed as damaged or incomplete.

a) All assets need to be in **Grade B Working Condition**.

### GRADE B

- No broken or missing parts.
  - No scratches or marks on the screen.
  - May have a few small scratches to the casing but nothing significant.
  - No cracks or dents in the outer case, screen, keyboard and trackpad.
  - Very minor wear and tear to the keyboard or trackpad.
  - Every element of the device is functional including battery (70% capacity or greater).
  - Includes charger or -£10
  - Security features removed e.g. bit locker, BIOS locked, Apple firmware lock, MS Autopilot.
- Overall the unit is in good cosmetic condition and is fully working.**

b) Etching - Assets that have been acid etched or engraved are acceptable for resale, but the extent of the etching will have a variable impact on rebate values, often significant.

c) All computers require originally installed Certificates of Authenticity (COA) to be present and Window XP COA as minimum.

**5** All **Stone 360** rebates are only valid for 30 days from the point of quotation (excluding all mobile phones and Apple products).

**6** All Apple product quotes are only valid for 14 days from the date of quotation.

**7** All rebates and revenue percentages are paid once the processing of the equipment is completed (30 days SLA).
